

SMÁRI™

ORGANIC ICELANDIC YOGURT

IT'S THYKK.

Icelandic is thicker and creamier than Greek yogurt. Name a yogurt -- this is thicker.

*Icelandic for "thick"

IT'S ORGANIC.

Made with milk from grass-fed, pastured Jersey and Guernsey cows, raised on small family farms. With no rGBH hormones, antibiotics -- nothing.

IT'S ICELANDIC.

Compared to other yogurts, Icelandic is thicker, and higher in protein and calcium. It's super-low in sugar. It kept our Viking ancestors strong through long dark winters. Ours is made in Wisconsin.

Halló Grocery Store Manager,

We'd love for you to consider carrying Smári Organic Icelandic Yogurt in your store. It's the only certified organic Icelandic yogurt here in the U.S. and is made with milk from pasture-based, family-farm cows. By implementing authentic Icelandic methods, Smári has the highest protein content per ounce of any yogurt on the market: 20 - 30% higher than Greek yogurt. It's also certified gluten-free, certified kosher, low in sugar, free of additives and preservatives, and ultra thick, creamy, and delicious!

Don't believe us? This is what Bon Appétit editor Rochelle Bilow had to say: "Lately I've been nothing short of obsessed with Smári Organic Icelandic Yogurt. I love it so much, I want to shout it from the rooftops." Wow. So what do you say? Interested in carrying the brave yogurt of Iceland? We thought so.

Here's our list of distributors:

United Natural Foods, East (UNFI East)	800-877-8898
United Natural Foods, West (UNFI West)	800-552-7633
Unified Grocers	800-724-7762
